

● COMPANY BROCHURE & PRODUCT GUIDE

BUILT FOR THE HARDEST ROCK ON EARTH.

We manufacture heavy crawler drill rigs, pneumatic wagon drills, air motors, and high-strength drilling tools for tough mines and quarries worldwide.

FLAGSHIP RIG: PSR-C300 HEAVY CRAWLER

Experience

12,000 m²

Factory in Hyderabad

35+ Nations

Global Deliveries

100%

Tested Before Shipping

● ABOUT PSRS ROCK DRILLS

Since **1998**, PSRS Rock Drills has been making heavy-duty drilling machines and tools that do not stop working. Drilling in hard granite, basalt, and rocky ground puts huge stress on equipment. That is why we forge, machine, and test every part inside our own factory in Hyderabad, India.

IN-HOUSE FORGING & CNC

We cut, forge, and machine steel parts with tight Japanese CNC accuracy so every tool fits smoothly and lasts longer.

HEAT-TREATED TOUGH STEEL

Our steel undergoes heat treatment to make the outer surface extra hard while keeping the inner core flexible against heavy shocks.

100% TESTED ON AIR BENCHES

Every rock drill, wagon drill, and rotation motor is live-tested under high air pressure before packing to ensure zero defects.

GLOBAL SUPPORT & SPARES

We export to 35+ countries and keep a complete warehouse of spare parts ready for quick dispatch whenever you need them.

OUR PROMISE

Low fuel consumption, simple maintenance, and high drilling speed in hard rocks.

25+ YRS

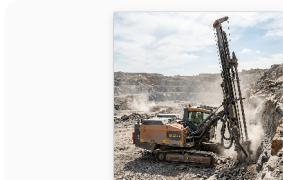

● OUR CORE PRODUCTS & MACHINERY

6 MAIN PRODUCT LINES

PSR-C300 Crawler Drill

HEAVY HYDRAULIC RIG

102 – 165 mm

30 meters

Heavy tracks for steep slopes, automatic rod changer, and high-power rotation head for...

PSR-W100 Wagon Drill

PNEUMATIC WHEELED RIG

50 – 76 mm

15 meters

Low-cost 3-wheel wagon drill that is easy to move by hand in quarries for stone splitting...

PSR-H6 Water Well Rig

TRUCK-MOUNTED DERRICK

150 – 250 mm

350 meters

Strong lifting derrick mast and top-drive motor to drill deep water borewells for farm...

Slim Drill LD4 Machine

COMPACT GALLERY RIG

90 – 115 mm

30 meters

Lightweight aluminum frame designed to fit inside narrow 1.2m underground mining...

Airtech Rock Drill

PERCUSSION HAND DRILL

32 – 45 mm

6 meters

Durable cast-iron hand drill for secondary granite boulder splitting and quick blast hol...

DTH Hammers & Bits

CARBIDE DRILLING TOOLS

4" & 5" Hammers

2m & 3m Rods

Carburized alloy drill rods, high-pressure DTH hammers, and tungsten carbide butto...

● **QUALITY MATERIALS WE USE**

FORGED FOR LONG LIFE

Ductile Cast Iron (SG 500-7)

Shock Resistant

Used for engine crankcases & motor bodies

Absorbs heavy vibration and does not crack under high 15-bar air pressure.

Hardened Alloy Steel (20CrNiMo)

High Wear Life

Used for drill rods & drive threads

Special heat-treated outer skin stops thread wear and prevents drill rods from jamming.

Tungsten Carbide Button Inserts

Hard Rock Grade

Used for DTH button drill bits

Super-hard carbide buttons (89-92 HRA) crush hard granite, basalt, and quartz without breaking.

Japanese CNC Machining Precision

Micron Accuracy

Used for valves, cylinders & pistons

Cut with exact $\pm 0.005\text{mm}$ accuracy to stop air leaks and give maximum drilling power.

OEM AIR MOTOR & SPARES

Airtech 70L4R 4-Piston Radial Pneumatic Motor

Standard rotation drive for wagon and crawler drills. 70mm bore, 450-520 CFM @ 12-15 bar, 0-1500 RPM. Crankcases, pistons, valves, and bearings always in stock for fast delivery.

INDUSTRIES WE SERVE

Quarry & Granite

Open-Pit Mining

Deep Water Wells

Roads & Anchoring

HEAD OFFICE & FACTORY

PSR'S Rock Drills Manufacturing Plant
